 - 2.a) Suppliers are entitled to require the Contracting authority to explain in writing the tender dossier. The written request must be delivered to the Contracting Authority no later than 4 working days before the deadline for submission of tenders.
 - 2.b) The contracting authority shall send an explanation of the tender dossier, or any related documents, no later than 2 working days after receipt of the request referred to in point 7.2.a). If the contracting authority provides a clarification on a request for an explanation that is not delivered in time, it may not comply with the deadline specified in the previous sentence.
 - 2.c) The contracting authority shall simultaneously send an explanation of the tender dossier, including the exact wording of the requirement under point (a), to all participants invited under the closed call, or publish an explanation of the tender dossier, including the exact wording of the application, in the same way as the open call notice.

The tender dossier contained in the tender documents may be amended or supplemented by the contracting authority before the deadline for submission of tenders. An amendment or supplementation to the tender dossier must be published or notified to the suppliers in the same way as the tender dossier, which has been amended or supplemented. Where the nature of the completion or amendment of the tender dossier so requires, the contracting authority shall simultaneously extend the time limit for the submission of tenders accordingly. In the event of such amendment or supplementation to the tender dossier which may extend the range of potential participants, the contracting authority shall extend the time limit to at least its full length since the publication or notification of the amendment or supplementation to the tender dossier.

All suppliers are obliged to review and eventually update their contact information before the completion of the registration in the electronic tool E-ZAK.
- 4.d) All documents sent via the electronic tool E-ZAK are deemed to be properly delivered on the day of their delivery to the user addressee's account of the document in the electronic tool E-ZAK. The fact when and whether the addressee has read the document or when and whether the electronic tool E-ZAK has sent a notification to the contact email address of that addressee does not affect the delivery date.
- 4.e) In line with the increasing requirements for cyber security, the rules for electronic communications are tightened. **From April 2, 2020 it will no longer be possible to submit tenders, requests to participate, preliminary offers, requests to participate in DNS and other messages to contracts published on the profile of the contracting authority of Masaryk University without the supplier's verified identity of the organization in E-ZAK.** The contracting authority therefore recommends that the supplier arrange for

identity verification as soon as possible. Identity verification is possible via a data box or via E-ZAK user support in accordance with the EZAK system vendor's user manual.
