Subject: Public Contract: Framework Agreement – NGS Sequencing of Plant Genomes (2023)

Explanation of the Tender Documentation (1)

The contracting authority provides all suppliers who have requested an explanation of the tender documentation or to whom the tender documentation has been provided, or other suppliers who have asked about the tender conditions, an explanation of the tender documentation. The explanation of the tender documentation is provided on the basis of inquiries from suppliers (question - answer) or information provided by the contracting authority (communication). The formulation of supplier inquiries is taken literally.

Communication No. 1:

The contracting authority informs all suppliers that states that it is amending Article VI.7(b) of Appendix 3 of the Tender Documents "Business Terms and Conditions". The article in question now reads: *"The price for the services will be paid in EUR. The official exchange rate of the Czech National Bank to the Taxable Performance Date will be used for the conversion of EUR/CZK. If the official exchange rate of the Czech National Bank to the Taxable Performance Date is not known when the invoice is issued, the official exchange rate of the Czech National Bank from the last working day preceding the Taxable Performance Date will be used for the conversion of EUR/CZK."* For this purpose, the contracting authority publishes a new version of the document under the file name **03_SEQ23_v2**.

Communication No. 2:

The contracting authority further states that the other provisions of the tender documentation including all its annexes and the deadline for submission of tenders remain unchanged.
