

THE DECISION TO CANCEL

Identification of the public contract

Name: Bioprinter

Type of public contract: Supplies

Type of procedure: Open above-the-limit procedure

Public contract address: <https://zakazky.muni.cz/vz00007667>

Identification of the contracting authority

Name: Masaryk University - Faculty of Medicine

Seat: Kamenice 753/5, 625 00 Brno

ID NO: 00216224

Represented by: Prof. Martin Repko, M.D., Ph.D., Dean of the Faculty of Medicine, MU

Statement:

The contracting authority has decided, in accordance with the provisions of Section 127(2)(h) of Act No. 134/2016 Coll., on Public Procurement, as amended, to cancel the tender procedure for the above-mentioned public contract.

Justification:

The contracting authority received only one tender within the deadline for submission of tenders. Upon opening the tenderer's tender, the contracting authority found that the tender contained only two documents, namely the model draft purchase contract submitted by the contracting authority under the terms of reference and the draft contract revised by the tenderer. In view of the extent of the modifications to the model purchase contract, this document submitted by the tenderer is considered by the contracting authority as a counterproposal which is not acceptable in the context of the tender procedure. No other document required by the tender documentation (such as the tender form or the technical specification) was submitted in the tenderer's tender.

In view of the fact that the participant did not meet the requirements of the contracting authority specified in the tender specifications, and in accordance with the provision of Section 127(2)(h) of the Public Procurement Act, where the contracting authority may cancel the tender procedure if there is only one participant in the tender procedure, and also for reasons of procedural economy, where the contracting authority would have to first exclude the participant and then cancel the tender procedure, the contracting authority decided to cancel the tender procedure for the above reason.
