5. EXPECTED VALUE OF THE PUBLIC CONTRACT

EVROPSKÁ UNIE
EVROPSKÝ FOND PRO REGIONÁLNÍ ROZVOJ
INVESTICE DO VAŠÍ BUDOUCNOSTI

Expected value of the public contract: 1 310 000 CZK – VAT not included

The mentioned estimated public contract value is the highest possible in relation to the bid price. Any higher tender price is not acceptable to the contracting authority because of the limited funding resource and any such higher bid by candidate will be rejected.

6. SPECIFICATION OF THE PUBLIC CONTRACT SUBJECT

The object of fulfilment of public contract is supply of new drying and sintering furnace in the extent and accordance with the tender documentation.

High-temperature sintering furnace up to 1800°C for firing ceramics in controlled atmosphere, with a programmable control unit, including transportation, installation at the client site and training of operation personnel. Minimum internal dimensions: 30cm x 40 cm bottom, height 25cm. Furnace design should ensure a high degree of homogeneity of the temperature field. The oven must include a chimney for exhaust gases. The oven must allow firing in the air and in controlled atmosphere of inert gas (N₂ and Ar). The oven must be equipped by means (e.g. protective muffle) for preventing corrosion of the heating elements to improve their service life.

The public contract subject is specified by the Contract, which forms an Annex to the terms of reference.

The contracting authority informs the applicant that this public contract is financed from the Operation programme Research and development for innovations (hereinafter OP VaVpl) of the Ministry of Education, Youth and Sports.

Project R&D center for low-cost plasma and nanotechnology surface modifications reg. no. CZ.1.05/2.1.00/03.0086

7. TECHNICAL SPECIFICATION ACCORDING TO § 45 OF THE ACT, IF THIS IS SUBSTANTIATED BY THE PUBLIC CONTRACT SUBJECT

Technical specification of the supply, which form the subject of the public contract is an inseparable part of the Contract, such as its Annexe No.1. The applicant will **fill in** this Annexe and will possibly complete it by adding his own Technical specification or description of the supplied equipment in Czech or English language.

8. BUSINESS CONDITIONS, INCLUDING PAYMENT TERMS, OR POSSIBLY ALSO OBJECTIVE CONDITIONS, UNDER WHICH IT IS POSSIBLE TO EXCEED THE AMOUNT OF THE BIDDING PRICE

8.1. PAYMENT TERMS

Binding payment terms are specified in the template of the Contract, such as Annexe No. 1 of the tender documentation.

8.2. OBJECTIVE CONDITIONS, UNDER WHICH IT IS POSSIBLE TO EXCEED THE AMOUNT OF THE BIDDING PRICE

EVROPSKÁ UNIE
EVROPSKÝ FOND PRO REGIONÁLNÍ ROZVOJ
INVESTICE DO VAŠÍ BUDOUCNOSTI

The contracting authority does not allow any exceeding of the bidding price, excepting the case described in item 4.5 of the Contract.

9. REQUIREMENTS OF VARIANTS OF OFFERS

The contracting authority does not allow any variants of offers.

10. REQUIREMENT REGARDING THE CALCULATION METHOD OF A TENDER PRICE

Requirements to manner of calculation of the tender price are specified in the template of the Contract.

11. OTHER REQUIREMENTS OF THE CONTRACTING AUTHORITY TO FULFILMENT OF THE PUBLIC CONTRACT

11.1. Requirement to specification of sub-contractors

The contracting authority requires in conformity with § 44 par. 6 of the Act that the applicant in his offer specifies those parts of the public contract, which he intends to order to one or to several sub-contractors, and to give their identification data (§ 17 letter d) of the Act), as well as as contact data of each sub-contractor. The applicant in his offer will submit a declaration, in which he will described the system of sub- contractor together with specification, what part of this public contract will be realised by the concrete sub-contractor – with specification of the type of supplies, services or construction works, and with specification of his percentage (%) financial share in the public contract.

12. QUALIFICATION REQUIREMENTS

Detailed specification of qualification prerequisites is given in the Qualification documentation, which forms an Annexe No. 2 to the Terms of reference. Qualification documentation stipulates in detail specification and manner of demonstration of qualifications.

13. MANNER OF EVALUATION OF OFFERS

The basic evaluation criterion for the award of a public contract shall be economic advantageousness of the tender.

The evaluation will be performed in the following manner:

The evaluating committee will use for assessment of the offers the evaluation scale from 0 to 100 points. Each individual offer will be evaluated on the basis of partial evaluating criterion by points score, which will reflect success of the relevant offer in respect to that particular criterion.

For criteria that are expressed numerically, for which the best offer is the one with the smallest value of the criterion A. Offering price, D. Consumption of electricity ,E. Consumption of gases, the assessed offer will obtain the points score, which will be calculated by the ratio of the most appropriate offer to the evaluated offer multiplied by 100.

EVROPSKÝ FOND PRO REGIONÁLNÍ ROZVOJ
INVESTICE DO VAŠÍ BUDOUCNOSTI

If the evaluating committee considers the value of another partial criterion than the offering price to be apparently disproportionate, the procedure described above is not used and the offer will get for this criterion 0 points. The evaluating committee must give reasons for this approach in its report on the assessment and evaluation of the offers.

The contracting authority has determined percentual weights for individual partial criteria according to their importance for the given selection procedure in such a manner that their sum is 100.

Partial evaluating criteria:

- A. Offering price.....weight 90 %**
- B. Total price for the replacement of heating elements in CZKweight 5 %**
- C. Total price for the replacement of inner casement wall in CZKweight 5 %**

The bidder will include into the Contract the data that are object of evaluation.

The bidder is not entitled to condition the data proposed by him by another condition. Such conditioning or presentation of several different values is the reason for exclusion of the bidder's offer from the selection procedure. The contracting authority will proceed similarly in the case that the bidder will present the value that is the object of evaluation in different quantity or form than stipulated by the contracting authority.

The following data are object of evaluation within the frame of partial evaluating criteria:

Ad A.) Within the partial criterion A. Offering price, the overall offering price for complete fulfilment of the object of public contract in CZK without VAT will be evaluated.

The contracting authority considers the lower price to be more advantageous.

Ad B.) Within the partial criterion B. Total price for the replacement of heating elements in CZK, it will be evaluated:

- Total price for the replacement of heating elements in CZK **(the lower total price for the replacement of heating elements in CZK will be evaluated with more points)**

Ad C.) Within the partial criterion C. Total price for the replacement of inner casement wall in CZK, it will be evaluated:

- Total price for the replacement of inner casement wall in CZK **(the lower total price for the replacement of inner casement wall in CZK will be evaluated with more points)**

14. REQUIREMENT FOR PROVISION OF TENDER SECURITY

The contracting authority does not require the tender security.

15. CONDITIONS AND REQUIREMENTS CONCERNING PREPARATION OF THE OFFER

15.1. The offer will be submitted in original and in one copy in writing for the purposes of presentation of documentation to the relevant control bodies; the offer will also contain the whole documentation in electronic form (preferably completely scanned) on suitable medium (CD).
