 Date 4 October 2013
Prof. Luděk MATYSKA, director

 Date 8 October 2013

By signing, the customer confirms to have read and understood the terms of CLC bio AS' maintenance, upgrades and support agreement, including the company's standard conditions (attached).

The following terms of payment are valid when invoicing: 14 days net cash. Attention is drawn to the fact that interest at a rate of 2 per cent per commenced month will be charged on overdue accounts. In connection with the interest calculation there will be an added charge of \$ 20.

By signing, the customer also confirms that he/she is informed about CLC bio's system requirements for the software.

CLC bio's Standard conditions Maintenance, Upgrade and Support Agreement

All perpetual software licenses and all high-performance computing products from CLC bio can only be purchased including a minimum 12 months subscription to CLC bio's Maintenance, Upgrades and Support.

The Maintenance, Upgrades and Support Agreement is a continuous annual agreement that is renewed automatically for the next calendar year unless terminated in writing by one of the involved parties (CLC bio or the Customer) not later than three months prior to the beginning of the next calendar year. If the software is purchased between October 1 - December 31 the deadline for termination of the Maintenance, Upgrades and Support Agreement is extended to March 31 of the following year.

Customer's right to support

An active Support Agreement allows the customer to request on-line, e-mail, and phone support from CLC bio and CLC bio's sales partners. CLC bio and her sales partners will use their best effort to solve software problems, based on a detailed description of the problem by the customer. Finding a solution is not guaranteed.

Customers with more than ten (10) licenses are required to nominate a person who will act as the Customer's contact person with CLC bio.

The Customer will use the best effort and most qualified personnel to investigate the source of the problem and to share detailed information with CLC bio's support personnel.

The Support Agreement shall only cover CLC bio's software and high-performance computing products and does not extend to other configurations in respect to operating systems and Customer's databases, etc.

Customer's right to maintenance and upgrades

An active Maintenance, Upgrades and Support Agreement allows the Customer to install new software and high-performance computing upgrades as soon as they are released. The benefits include

- Correction/elimination of program errors
- Recoded features due to planned structural changes in the program
- Changes in the program due to inputs from customers and users
- General changes, expansions, and improvements

Upgrades and maintenance of high-performance computing solutions include only the software component of the solution - not the hardware component.

Installation guides and user manuals are available from www.clcbio.com at any time.

Invoicing and payment of subsequent years of Maintenance, Upgrades and Support

Each year in November or December, CLC bio will invoice the customer for the upcoming calendar year (January 1 - December 31). The invoiced amount is due for payment two (2) weeks after invoicing.

The first year after the initial purchase, a discount is provided corresponding to the months that have already been paid for.

Example: For a license purchased on June 1, the fee for Maintenance, Upgrade and Support until June 31 of the following year is already included in the initial purchase price. The invoice for the renewal of Maintenance, Upgrade and Support will, therefore, only include the 6 months until the end of the year (covering the period from July 1 - December 31).

Prices

The price for renewing the Maintenance, Upgrade and Support Agreement is 25% of the software list price at the date of invoicing. The amount will be based on the total number of CLC bio licenses held by the Customer at the time of invoicing.

Termination of the Maintenance, Upgrade and Support agreement

Termination of the Maintenance, Upgrade and Support Agreement may only take place in writing with effect from the end of the Maintenance, Upgrade and Support period. Written notice of termination is to be received by CLC bio no later than October 1 in the calendar year before the next maintenance, upgrade and support period. Termination shall not involve any form of repayment.
