Time period and form of providing proofs of qualification fulfilment

Suppliers shall prove their meeting the qualifications (**a solemn declaration**) within the period for submission of bids.

The tenderer that the contract pursuant to Section 82 of the Act is to be concluded with, shall be, prior to its conclusion, obligated to produce the evidence demonstrating the fulfilment of qualifications in original or in an officially authenticated copy. Failure to satisfy this obligation shall be deemed as the failure to render collaboration to conclude the contract within the meaning of the provision of Section 82(4) of the Act.

Basic qualification requirements

The basic qualification requirements shall be fulfilled by a tenderer that the contract is to be concluded with who documents the fulfilment of the conditions set out in Section 53 (1) a) through k) of the Act.

The basic qualification requirements shall be documented by the tenderer that the contract is to be concluded with in the manner set out in Section 53 (3) of the Public Procurement Act, i.e. by means of submitting:

Thus it is also necessary to provide **a statement of corporate criminal records**.*

In the case of joint submission of a bid, the suppliers are obliged to attach to the bid an original or a verified copy of the agreement containing an undertaking that all the suppliers shall be jointly and severally liable to the Client and/or any third parties under any and all legal relations established in connection with the relevant public contract for the entire term of the public contract performance, as well as for the term of any other obligations arising from the public contract.

Foreign entities shall submit the documents confirming the qualifications fulfilment in the original language, together with their sworn translation to the Czech or English language; documents drafted in the Slovak language need not be translated to Czech.

The information regarding documents used in the Czech Republic for documenting the qualifications fulfilment is available for foreign suppliers at the web of the European Commission: <http://ec.europa.eu/markt/ecertis/login.do>

Moreover, **mainly foreign contractors** may use the **manual for proving of qualifications**.

However, the contracting entity feels obliged to notify the contractors that the manual is merely of subsidiary and methodical character.

5) Use of an extract from the List of Qualified Suppliers

The suppliers registered in the List of Qualified Suppliers (Section 125 and following of the Act) may document the fulfilment of a part of their qualifications by means of an extract from the List of Qualified Suppliers. Such extract may not be older than 3 months on the last day as of which the qualifications fulfilment is to be documented (i.e. as of the last day of the bids submission). This extract documents the qualifications fulfilment within the scope set out in Section 127 of the Act.

6) Use of a certificate from the System of Certified Suppliers

The suppliers who have obtained a certificate in the System of Certified Suppliers (Section 133 and following of the Act) may document the fulfilment of a part of their qualifications by means of submitting a valid certificate (see Section 140 (1) of the Act). This certificate documents the qualifications fulfilment within the scope set out in Section 134 of the Act.

Documents drafted in any other language must be accompanied with their sworn translation to the Czech or English language; this shall not apply to documents drafted in the Slovak language. The bid may not contain any re-writing or corrections that might be misleading for the client.

The client permits, in compliance with Section 69 (5) of the Act, submitting the bids both in printed form and in electronic form.
