

DECISION ON THE SELECTION OF THE MOST SUITABLE TENDER

Contracting authority:

Masaryk University, CEITEC - Central European Institute of Technology,

registered office Kamenice 753/5, 625 00 Brno, ID No.: 00216224,

represented by prof. RNDr. Jaroslav Koča, DrSc., director of CEITEC MU

Public supply contract:

Multinuclear coil for CEITEC MU - II

Project:

CEITEC - Central European Institute of Technology

Project reg. no.:

CZ.1.05/1.1.00/02.0068

The contracting authority has decided to select the tender submitted by RAPID Biomedizinische Geräte, RAPID Biomedical GmbH, registered office Kettelerstr. 3-11 Technologiepark, Pavillon 4, 97222 Rimpar, Germany, Reg. No: Wuerzburg HRB 6495, (hereinafter the "tenderer"), as the most suitable.

Justification:

The contracting authority obtained only one tender submitted within the time limit for the submission of the tenders.

The tenderer demonstrated the fulfilment of qualifications in view of the requirements of the contracting authority set out in the procurement documents.

The tender submitted by the tenderer has fulfilled the requirements of the contracting authority indicated in the procurement documents, the tender has not been in contradiction with legal regulations in force and the tender has not contained an abnormally low tender price.

Due to the fact that only single tender has been submitted, the evaluation committee did not carry out the evaluation of tenders on the basic evaluation criterion of the lowest tender price in CZK excluding VAT in compliance with the article XIII. of the procurement documents.

The evaluation committee recommended the contracting authority concluding a contract with the tenderer. The tender price of the tenderer is 42.350,- EUR excluding VAT.

Thereafter the contracting authority decided to select the tender submitted by the tenderer as most suitable for performance of the public contract.
