

DECISION ON THE SELECTION OF THE CONTRACTOR

Identification of the Public Procurement

Name: **Plastination laboratory**
 Type of the public procurement: **Supplies**
 Type of procurement procedure: **Small-scale public contract**
 Address of the public procurement: <https://zakazky.muni.cz/vz00006128>

Identification of Contracting Authority

Name: **Faculty of Medicine of Masaryk University**, a faculty of a public university according to Act No. 111/1998 Sb., on Higher Education Institutions, as amended, not registered in the Commercial Register
 Registered office: **Kamenice 753/5, 625 00 Brno**
 Reg. No.: **00216224**
 Represented by: **prof. MUDr. Martin Repko, Ph.D., Dean MUNI MED**

The Contracting Authority decided to select the offer of the participant BIODUR Products GmbH, Im Bosseldorn 17, 69126 Heidelberg, Germany, ID No.: HRB711577, as the most suitable for fulfilment of the above mentioned public procurement.

Justification:

The Contracting Authority stated in the tender specifications that the submitted offers will be evaluated as follows:

Submitted offers shall be evaluated according to their economic advantage under following criterion.

Criterion	Criterion weight
Offer Price	100 %

The Method for the Evaluation of Offers under the Criterion of the Offer Price

- Offer price shall be the price for fulfilling the subject-matter of the public procurement.
- The offer price shall be set in **CZK or EUR excluding VAT and it shall be quoted in the offer form.**
- The offer with the lowest offer price shall be evaluated as the best.
- Regarding the evaluation of offers, the offer prices of all offers quoted in EUR shall be converted into CZK at the CNB exchange rate set for the last day of the deadline for the submission of offers.

Given that the Contracting Authority received only one offer in the stated period for submitting offers, the evaluation was not carried out. The Contracting Authority merely assessed the fulfilment of the conditions for the participation of the sole participant and found that the sole participant meets all the conditions and did not find any reason for which the public procurement could not be awarded on the basis of the offer of that sole participant.
