			P01068	CHODBA	9,11 m <sup>2</sup>

Panel	Symbol	Protein	Protein Interactions	Comment
A		Protein A	Protein A interacts with Protein B and Protein C.	Protein A is a transcription factor.
B		Protein B	Protein B interacts with Protein A and Protein C.	Protein B is a transcription factor.
C		Protein C	Protein C interacts with Protein A and Protein B.	Protein C is a transcription factor.
D		Protein D	Protein D interacts with Protein A and Protein B.	Protein D is a transcription factor.
E		Protein E	Protein E interacts with Protein A and Protein B.	Protein E is a transcription factor.
F		Protein F	Protein F interacts with Protein A and Protein B.	Protein F is a transcription factor.
G		Protein G	Protein G interacts with Protein A and Protein B.	Protein G is a transcription factor.
H		Protein H	Protein H interacts with Protein A and Protein B.	Protein H is a transcription factor.
I		Protein I	Protein I interacts with Protein A and Protein B.	Protein I is a transcription factor.
J		Protein J	Protein J interacts with Protein A and Protein B.	Protein J is a transcription factor.
K		Protein K	Protein K interacts with Protein A and Protein B.	Protein K is a transcription factor.
L		Protein L	Protein L interacts with Protein A and Protein B.	Protein L is a transcription factor.
M		Protein M	Protein M interacts with Protein A and Protein B.	Protein M is a transcription factor.
N		Protein N	Protein N interacts with Protein A and Protein B.	Protein N is a transcription factor.
O		Protein O	Protein O interacts with Protein A and Protein B.	Protein O is a transcription factor.
P		Protein P	Protein P interacts with Protein A and Protein B.	Protein P is a transcription factor.
Q		Protein Q	Protein Q interacts with Protein A and Protein B.	Protein Q is a transcription factor.
R		Protein R	Protein R interacts with Protein A and Protein B.	Protein R is a transcription factor.
S		Protein S	Protein S interacts with Protein A and Protein B.	Protein S is a transcription factor.
T		Protein T	Protein T interacts with Protein A and Protein B.	Protein T is a transcription factor.
U		Protein U	Protein U interacts with Protein A and Protein B.	Protein U is a transcription factor.
V		Protein V	Protein V interacts with Protein A and Protein B.	Protein V is a transcription factor.
W		Protein W	Protein W interacts with Protein A and Protein B.	Protein W is a transcription factor.
X		Protein X	Protein X interacts with Protein A and Protein B.	Protein X is a transcription factor.
Y		Protein Y	Protein Y interacts with Protein A and Protein B.	Protein Y is a transcription factor.
Z		Protein Z	Protein Z interacts with Protein A and Protein B.	Protein Z is a transcription factor.
